Cumulative Index

SURVEYING AND MAPPING

Volumes VI and VII

This Index includes all the principal articles, as well as the shorter items having reference value, that have appeared in Volumes VI (1946) and VII (1947) of SURVEYING AND MAPPING. For the "Principal Articles" classification a combined subject and author index is used, while in the other classifications only a subject index is used. The "Miscellaneous Items" classification includes surveying and mapping news items, "fillers," poems, quotations, etc.

References are to volume and page only, because continuous pagination was used for an entire volume beginning with Volume VI.

The following issues of the Journal were published during 1946 and 1947:

VOLUME VI—1946

Jan.–Mar. (pp. 1–96)

VOLUME VII—1947
